<b>DIFF</b>	0.030	0.035	0.035	0.040	0.040

The **Rattler NU** takes advantage of the new chemistry in cover stocks Not Urethane (NU). This chemistry allows us to create a unique urethane motion without the pitfalls of a urethane ball. The **Rattler NU** features the original Rattler core with an RG of 2.480 and a differential of 0.035, giving you a medium diff core and a unique cover. The **Rattler NU** is a great addition to the Rattler lineup, yielding a smooth, controllable, continuous ball motion that allows you to control the backend of the lane.
