

INCOGNITO PEARL™

WEIGHTS 16-14 Pounds

\$ 000.00 DRILLED

\$ 000.00 UNDRILLED

We have added a pearl additive to the S.H.A.R.P. cover giving more length and more recovery. This chemistry yields a quicker and sharper motion from the breakpoint. Combining this chemical friction technology with our new taller narrower core design and the pearl additive makes the Incognito Pearl the perfect complement to the Incognito Solid.
