

The **No Doubt** uses the exceptionally performing HK22+ Pearl cover to create a clean, sharp motion.

The **No Doubt** features a newly designed Super-Symmetrical core. Our goal was to create a ball with Asymmetrical characteristics yet a longer hook window so it could be used on a greater range of lane conditions by various styles.

WOW!

The **ZigZag Solid** is a strong, continuous Asymmetrical ball with an RG of 2.501, a total DIFF of 0.045, and an Intermediate DIFF of 0.015. The core in the ZigZag was designed to allow a greater change in Differential numbers after drilling.
